The popular home energy savings workshop, NHSaves Button Up, will be offered as a webinar on **Thursday, January 17th, Noon – 1pm**. This webinar will give you tips on how to improve the energy efficiency of your home. It covers basic building science principles as well as examples of whole house weatherization measures. It also covers details about the residential energy efficiency financial incentive programs offered by NH utilities to provide energy audits, weatherization measures such as air sealing and insulating, and rebates on electric and gas appliances as well as other incentives. NH residents wishing to use energy more efficiently, conserve energy and save money on their heating and cooling bills will find this information very helpful. **Andy Duncan Ph.D., Energy Training Manager for Lakes Region Community College will be the presenter.** This webinar is sponsored by the utilities through NHSaves and coordinated by the Plymouth Area Renewable Energy Initiative.

After registering, you will receive a confirmation email containing information about joining the webinar.
