Old Business/New Business

A proposal for an addition to the zoning ordinance on solar was passed out. The Board reviewed and discussed. All members thought the proposal looked good. There will be a special public hearing at our next meeting on January 2nd. Amy will advertise for this meeting in the paper and have Jen post it on the website as well.

The Board reviewed and discussed 3 other proposals having to do with roadways. John will ask the municipal association to see if these would be better as part of the master plan vs zoning ordinance. Board members all agreed to placing these in the master plan if the municipal association was in agreement.

With no more business, on a motion made by Skip Redfield, seconded by Jim Keefe the meeting was moved to be adjourned. PASSED UNANIMOUSLY
