

Sugar Hill Broadband Committee Minutes

June 14, 2023

Via Zoom

Attending: Carol Miller, Consultant

Doug Evelyn, Michael Morley, Tim Egan, Nancy Martland, Nancy Vailas, Jeanne Cummings, Margo Connors

Guests: New Hampshire Electric COOP Team

NHEC Presentation on Roll out of Broadband in Sugar Hill:

Should be built out by Q 1 2024 (weather permitting); 132 meters; approximately 30 miles.

Will provide installation drops to homes with no additional fees.

Could offer service to additional households, but NHEC customers come first.

They own some poles in Sugar Hill, may have to add more?

The Committee agreed to hold a community broadband information meet and greet with CCI, NHEC and Spectrum on September 20, 2023 (6 - 7:30pm) so that residents can ask questions. We will request that vendors set up information booths. There will be no formal presentations.

Committee will develop a list of questions that people might ask at our next meeting so that all three vendors will be prepared with appropriate handouts.

Next meeting: August 9, 2023 @ 5 pm via zoom

Respectfully submitted,  
Margo Connors
