

Thursday, June 20, 2024  
5:00 pm

Attending via Teams:

Carol Miller, consultant

Nancy Martland, Doug Evelyn, Jeanne Cummings, Michael Morley, Tim Egan, Margo Connors

Representatives from Fidium Fiber Consolidated and NH Broadband (NH Electric COOP).

Fidium Fiber build out should start in Franconia and Sugar Hill at the end of 2024 or early 2025. Michael Morley brought up the importance of aesthetics as the engineering phase begins.

NH Broadband has 21 "active" locations installed; 17 pending out of 133 locations. It still is important for those who want high speed internet with these companies to sign up. Sugar Hill residents can sign up at [www.sugarhillnh.org](http://www.sugarhillnh.org) on the home page.

Committee will meet again in September and discuss aesthetics as well as another community information session to include Fidium, NH Broadband and Spectrum.

Not sure how the Grafton County "middle mile" is progressing.

Respectfully submitted,

Margo Connors
