

Minutes of the Sugar Hill Conservation Commission January 15, 2026

In attendance: Jennifer Childs-Roshak, Margo Connors, Claire Von Karls, Hayley Droppert, Judy and Larry Sawyer.

Discussed inviting Laura Sokoloski of the UNH Extension Service to our March meeting. Laura is interested in finding out if the Extension Service can help us with some of our potential projects. This could be an opportunity to identify invasive plants in the Town Forest and at Coffin Pond and create a remediation plan. LARRY will send her an email and report back to the Commission.

Discussed HOLLY'S concerns with using chemical means to battle invasive plant species and the medicinal uses of Knotweed.

One possible project would be to inventory any invasive species in the Town Forest and concentrate on their remediation this year. We will wait for input from Laura.

Discussed the possibility of creating a skating road/path on Coffin Pond. LARRY will ask for opinions and concerns of the Select Board especially the liability issue. He will report back.

We discussed kiosks. HAYLEY mentioned the kiosks installed for the bicyclists in our area. LARRY and CHRIS will look into this.

We have observed 4-wheeler tracks on Coffin Pond. It appears that the machine was trailered there. If it happens again we will post NO OHRV signs and notify the police department.

Nothing to report on the Warren property.

JENNIFER made a motion to adjourn and JUDY seconded the motion. All approved.

Meeting adjourned at 5:50. Next meeting is February 19, 2026.
